Led the strategic and creative development for national brands across all media platforms — effectively translating our clients' brand message to TV, digital, radio, print and promotional materials. Because of many of the clients' quick turnaround times, my ability to handle interruptions during the day and at the same time stay on task with my job allowed me to be productive even when sometimes the details of my job were not completely clear. I was able to anticipate things that needed to be done to accomplish agency and client objectives.
